Denison Olmsted - Revolvy Denison Olmsted (June 18, 1791 – May 13, 1859) was an American physicist and astronomer . Professor Olmsted is credited with giving birth to meteor science after the 1833 Leonid meteor shower over North America spurred him to study this phenomenon. Biography Olmstead was born June 18, 1791 in East Hartford, Connecticut . In 1813, he graduated from Yale College , where he acted as college ... Aristotle's Natural Philosophy - Waseda University The natural world is generally predictable because things have an internal nature — that is, a tendency to fulfill their innate potential. The natural philosopher's task is to observe the natural world and to discover the internal nature of things. We can only do this, when things are in their natural, uncontrolled state.
