The National Farm Animal Care Council (NFACC) Code development process was followed in the development of this Code of Practice. The Code of Practice for the Care and Handling of Bison replaces its predecessor developed in 2001 and published by the Canadian Agri-Food Research Council (CARC). Climate change and livestock: Impacts ... - ScienceDirect Global demand for livestock products is expected to double by 2050, mainly due to improvement in the worldwide standard of living. Meanwhile, climate change is a threat to livestock production because of the impact on quality of feed crop and forage, water availability, animal and milk production, livestock diseases, animal reproduction, and biodiversity. 5 Acres & A Dream Even if one doesn't follow the agrarian calendar, this time of year seems a natural fit for projects such as looking to one's fences. The planting and harvest seasons are just too busy! Early spring is a good time, because the weather is starting to get mild and it's a joy to be outdoors again after a long, cold winter.
