Photo Techniques - Canon Europe the model in portrait photography is very important. For this reason among others, lenses between 50mm and 135mm are often used, in order to maintain a certain distance from the model. The standard zoom lenses which are often sold together with camera bodies cover this focal length range, and are therefore generally suitable for this type of photography. Amazon.com: Photographing Women: 1,000 Poses ... "Photographing Women: 1,000 Poses" is an excellent reference to use as a starting point for getting interesting poses out of a female model during a controlled shoot. The focus is on fashion-style shots, so the models are all beautiful and skinny, this isn't a book about making average-looking people look good.
